Over 40 Years of Experience Providing Museum Quality Custom Shadowboxes, Awards, and Panels

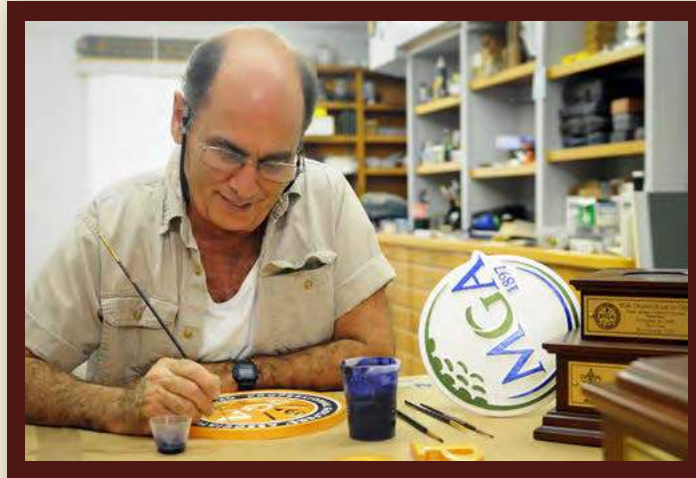

Our Founder and Creative Director, Pat Morell has spent his entire career perfecting and developing unique product lines for the most discerning of customers. Morell Studios has enjoyed over 40 years of experience providing museum quality works of art to the most prestigious clubs and corporate organizations.

When major U.S. golf organizations, the biggest names in the golf industry, chapters of The First Tee and the top golf courses in the U.S. need a premium quality recognition award or product, they contact Pat Morell. Pat has created masterpieces for the PGA of America, Jack Nicklaus, Gary Player, Annika Sorenstam and such prestigious clubs as Oakmont, Seminole, Baltusrol, Winged Foot, and Shinnecock Hills to name only a few.

Pat began his design and woodworking career in the luxurious segment of the yacht industry. The woodworking techniques inherent to the marine industry require intricate detail in design, craftsmanship, assembly and finishes. Pat has applied his extensive knowledge of woodworking, carving, engraving and custom paints and finishes to the creation of a stunning product line of awards and panels.

Pat's big break in the golf industry came when he approached Bear Lakes Country Club and offered to do some work for them in exchange for an introduction to Jack Nicklaus. That meeting led to Morell handling a variety of assignments for Nicklaus and his wife, Barbara.

In 2001, Morell went to Muirfield Village Golf Club in Ohio and designed a permanent display

with trophies of Nicklaus' wins at the four Majors. He also created a special display at The Lost Tree Club (North Palm Beach, Fla.) called The Legacy of Golf's Golden Bear. This celebrated Nicklaus' lifetime achievements featuring Jack's Majors' trophies and the U.S. Amateur trophy. All were handcrafted by Pat. Morell Studios is currently a Licensee of the Nicklaus Companies, providing a customized line of hole-in-one plaques that are personally autographed by Nicklaus.

Every product is assembled in the USA at our production facility in Florida, under Pat's direction. Our design studios include an experienced team of wood workers, artists, engravers and finishers.

From country clubs to corporations, our products are unmatched in design, craftsmanship and creativity.

ENGRAVING

Our engraving department is experienced in all types of methods and materials, including brass, silver and pewter. We can replace or repair old, dull and mismatched plates with one of our many alternatives.

Locker Plate

CUSTOM 3D LOGOS

Our 3D medallions and logos are created by Pat Morell and his staff. Pat hand carves the logos to create a model. He creates a mold from the model to cast the individual pieces. The pieces are hand painted in color or antiqued in a gold, silver or bronze finish.

TERMS AND CONDITIONS

3D Logo Production

Vector logo artwork is required via email with all orders in the following formats: ai, eps, dxf or cdr, unless customer logo is already on file. Logos submitted in other file formats may require a \$25 setup charge to convert to a vector file. Logo files should be transmitted electronically to info@morellstudios.com. All logos being converted to 3D will incur a minimum set-up fee of \$450 depending upon logo complexity and size.

Ceramic Production Guidelines

Initial \$50 set up fee for new logos and tournament text. Please send logos in .eps format. Prices shown include one carved logo and text. Additional set up fees may be necessary for special orders and multiple logos. Production times are two to three weeks after artwork is approved by customer signed proof. Custom orders cannot be returned or canceled once production begins.

Proofs

An engraving proof in PDF form will be emailed to the customer prior to commencing work. In order to meet typical delivery times, customer approval via email is necessary within 48 hours of receiving the proof. Work will not commence until the customer approves the proof via email. Accuracy of information and correct spelling is the responsibility of the customer.

Lead Times

Most standard plaques and awards are typically shipped within two weeks of signed proof. Plaques and desktops containing 3D logos typically ship within six to eight weeks of order depending upon logo complexity and customer approval of our proof. Complex custom projects that require approval of drawings, such as Recognition Panels, Perpetual Bases and Pedestals, typically ship within eight to ten weeks of customer approval of our proof and receipt of deposit.

Rush Orders and Shipping

Always communicate your order deadline to your sales associate. Rush orders may incur an additional charge and if necessary, overnight shipping costs will be added to the final order price.

Freight terms are FOB factory. All orders are typically shipped via UPS ground or common carrier unless otherwise requested. Special packaging or crating charges may apply to oversize products.

Customers should inspect all products within 24 hours of delivery. Please report any products damaged in shipping to customer service at info@morellstudios.com within 24 hours of delivery.

California Law Prop 65 Warning:

Products may contain chemicals, known to the State of California, to cause cancer and birth defects or other reproductive harm. For more information: www.oehha.ca.gov/prop65

TERMS of Sale and Payment Terms

All orders are subject to approval and product availability. Product prices and specifications, no matter where listed are subject to change without prior notice. Standard payment terms of 30 days with prior credit approval. A 50% non-refundable deposit is required on all orders in excess of \$4,000.00. Payment may be made via check or credit card. Cancellations cannot be accepted after product customization commences or for special order products. Taxes will be charged where applicable unless customer provides a tax-exempt certificate.
